

MULTIPLIER EVENT- E2

DESCRIPTION OF THE EVENT

This event took place in the Economics Department of the Gazi University on **16 February 2016**. 18 academicians attended the event. Within the framework of this activity, written promotional materials are distributed then the goals, content and the methodology of the project were shared with our colleagues.

After the presentation about the project, questions were answered. Among the questions asked were details about the feasibility of the water treatment plants and water economics. On the other hand, how European tools were applied in practice was issue that attracted the attention of colleagues. Therefore, event was provided information about the ECVET application and the how framework of occupational qualifications were created in the H20 Project. At the end of the event, it was decided to organize a wider event that students and stakeholders would also attend.
