4. Opinions and recommendations from the participants

General evaluation of the opinions of participants of the ME-2 is given below.

- I think the objectives of the event are clear. And the materials are easy to understand. I am satisfied with the provided training materials.
- I am satisfied with time was allocated to each issue on the agenda.
- The agenda is consistent with objectives of the event.
- The ME-2 meet my learning objectives.
- Purification of water is an important topic.
- I would like to learn more about drinking water treatment.
- The sessions are well organized.
- The PURE-H2O competence model could contribute to my job performance making it easier and more productive.
- PURE-H2O project is an interesting and significant subject.
- This will help my future professional development on drinking water issues.
- The competence areas are well defined in training materials (leaflets, poster, brochure, folders, etc.).
- Organizing the training materials in short parts makes it easier to understand. Since you do not need to spend lots of time in learning those small parts, it is effective.
- I will suggest PURE-H2O Project and its products to my peers.

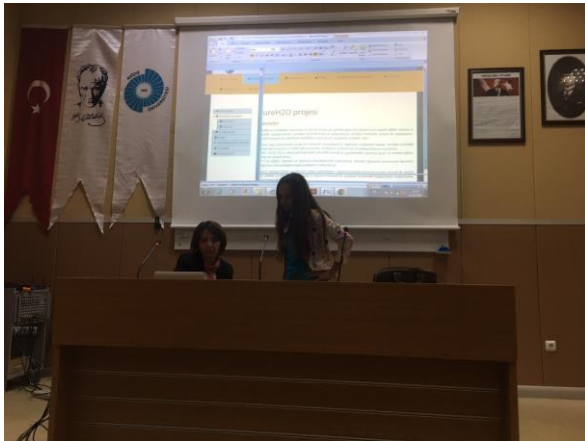

5. Conclusion

The evaluation was successful in overall. The ME-2 is very well organized. The result of the evaluation shows us that the quality of the training materials is well, technical information given in the training materials are satisfactory.

The contribution of this ME-2 can be summarized as;

- Different perspectives from different specialists were accompanied.
- Different perspectives of participants from different organizations were evaluated.
- It was appreciated that the outputs are practicable and compact.
- It was emphasized that these types of events support dissemination of the project.

Photographs taken in the ME-2 are given below.
